# An Online Sourcebook: Integrating Gender in Climate Change Adaptation Proposals

|

**Author(s)**
Diamond, Nancy K Lellement, Dominique

**Description / Abstract**

Developed by USAID Adapt Asia-Pacific and hosted by the Asia-Pacific Adaptation Network (APAN), the Sourcebook is a live document that will be periodically updated.

This Sourcebook is intended to be used mainly by individuals and teams who prepare large-scale climate change adaptation (CCA) project proposals. The Sourcebook provides readers with tools to help answer the question, "How do we best go about incorporating gender considerations into our CCA proposal?"

**Publication year**
2014

**Publisher**
