

RESOURCE

International Drinking Water Supply and Sanitation Decade: Project and Programme Information System

|

Description / Abstract

This booklet was prepared by the unit for Global Promotion and Cooperation for Water Supply and Sanitation of the World Health Organisation, which acts as the Secretariat for the Steering Committee for the International Drinking Water Supply and Sanitation Decade.

It was written for the use of officials within governments dealing with water supply and sanitation matters and international staff and others involved in different capacities in the external support of the International Drinking Water Supply and Sanitation Decade. The booklet presents the main guidelines for utilization of project data sheets in the identification of projects for external funding.
