2020 Annual Report: Valuing Water, Enabling Change

|

Description / Abstract

The 2030 Water Resources Group forges multi-stakeholder partnerships, or MSPs, to collectively manage this scarce resource for the benefit of people, ecosystems, and economies. This report tracks the activities and impacts between July 1, 2019, and June 30, 2020. It provides a record of our strategic approach and our work at the country level.
