Parallel Tracks or Connected Pieces?: UN Peace Operations, Local Mediation, and Peace Processes

|

Author(s)
Boutellis, Arthur Mechoulan, Delphine Zahar, Marie-Joëlle

Description / Abstract

Track-1 mediation processes have increasingly struggled to deliver comprehensive peace agreements that address fragmented conflict dynamics and include local communities' needs. As a result, local mediation has increasingly been a focus for the UN, including for UN peace operations. UN peace operations can play an important role in supporting local mediation initiatives, whether these initiatives are separate from, complementary to, or integrated into national processes.
