

MINIMAX Competition: Solutions for Managing Water and Climate Extremes

The MINIMAX Competition is open to all initiatives that contribute to improving flood, drought, and water resources management. The Competition aims to identify innovative and practical solutions that **MINIMISE** the negative impacts of hydroclimatic extremes and **MAXIMISE** social, economic, and environmental benefits.

Solutions should cover one of **four themes**, to be selected on 24 March:
Finance | WASH | Gender | Transboundary | Urban | Nexus | Youth | Data

Submit your Solution and contribute to:

BRIDGE WATER AND CLIMATE COMMUNITIES

INSPIRE ACTION

STRENGTHEN COLLABORATION

How do I submit?

Visit the GWP Toolbox: IWRM Action Hub

www.gwptoolbox.org/minimax-competition

Enter between **24 March** and **1 June 2022**.

Prize

Winners will be invited to present their MINIMAX Solution at the World Water Week in Stockholm. The prize includes travel, accommodation, and the registration fee. Winners will be announced on 1 July 2022.

MINIMAX Solutions will be featured on the GWP Toolbox: IWRM ActionHub and the Integrated Drought Management Programme and Associated Programme on Flood Management websites. Winners can join events as part of the Water and Climate Coalition's Activity Market Place.

#minimax

The MINIMAX Competition will open at a special session of the 9th World Water Forum on 24 March to launch the GWP Toolbox: IWRM Action Hub | www.gwptoolbox.org
